

In-Car Antenna - 4G/LTE

In-Car 6 Glass Antenna Designed for use in 698-2700 MHz

- Supports 9 Band in one installation
- Low profile
- For indoor
- No Groundplane needed

ELECTRICAL SPECIFICATIONS

Frequency range (MHz)	698~960 / 1710~2170 / 2.3~2.7 GHz
Polarisation	Linear
Gain	0~2dBi
Max. Power input	10 Watt
VSWR	<2.0
Impedance	50 Ω

Mechanical specifications

Material	ABS
Mount type	Adhesive on Glass
Cable / Connector	RG174 and FME, SMA, TNC, FAKRA or others
PCB Dimensions	104,6x15,1 mm
Operating temperature range (°C)	-40 to +85

Part no. 36050	300 mm RG174 - FME female
Part no. 36051	50 mm RG174 - SMA male
Part no. 36058	300 mm RG174 - FAKRA (red)
