

E180F

Deck mount

This universal deck mount is delivered as a complete kit including EPDM rubber gasket for ingress protection and M6 x 50 mm bolts. The supplied bolts allow for a deck thickness of up to 36 mm.

The mount is intended for applications where the coaxial cable is protected inside the mount and cable feeding through the deck.

Mechanical Specification

Material	Stainless Steel (SS316)
Finish	Polished
Weight (kg/lbs)	0.65/1.45
Mounting method	Deck mount
Thread	1 1/4"-11 TPI, external

This part fits

This product fits all AC Antennas products with an internal 1.25"-11 TPI threads, which is ideal for the N240F revolving nut. Hence this mount fits antennas such as the CX4, CX3 5/8 and Cellular antennas.
